ANB Futbol commitment to Player Development and assistance to underprivileged athletes continues with student athletic scholarship

Leyson Mosquera, member of ANB Futbol and Futbol4Life program, has been awarded a US prep school scholarship with Black Rock FC Residential Academy at Northwood School in Lake Placid, NY.

Leyson was identified as a talented player from Armenia, Colombia at recent ANB Futbol International ID Camps in Canada and in Colombia. Since being identified as a strong 14-year-old athlete in 2017, Leyson has traveled with ANB Futbol to various international tournaments in Europe (England, France) and USA. He has also been invited for personal trials at professional European academies - ESTAC Troyes and RC Grasse. Additionally, he has participated in the Futbol4Life Program in Colombia where he has learned leadership skills and improved his English immensely. Leyson comes from a very modest background but has worked hard to recognize the opportunity to further his education at Northwood School in the hopes of a professional futbol contract or a university scholarship.

Bassam Naim, ANB Futbol' Academy Director, "We are all honoured to have Leyson represent ANB Futbol. For me, Leyson is a role-model for hungry international athletes and younger players in the Academy. We are extremely thankful for Jorge Mendoza's support (founder of Futbol4Life) in ANB's vision, and I am happy to see Leyson take the next step in his Futbol career. I am sure Leyson will continue on the road to further success!"

Jorge Mendoza, Futbol4Life founder, "This is a dream come true. My goal is to provide lifelong skills for young Colombians such as leadership and English language tutoring, however, to see Leyson go to a prestigious prep school in

the USA and play futbol will change his family's life prospects for generations to come. I am excited to see what the future holds for this young man!"
